Current initiatives and priorities

1. Regulations and rules
2. Providing technical expertise to legislative efforts
3. Addressing conflict species
4. Species conservation
   a) Marsh bird conservation
   b) Grassland bird conservation
   c) Colonial waterbird conservation
   d) Shorebird conservation
“Dream” projects and unaddressed needs

• Coordinated monitoring of all priority species throughout the flyway.
• Understand the bottlenecks within the annual life cycle of priority species.
Challenges and impediments to implementation

- Limited time and resources.
- Lack of coordination/communication with NGO and academic communities.
